OPEN SPACE – Streetart und moderne Bewegungskunst e.V.  
Halfmannswiese 53b, 44879 Bochum  
Hereinafter referred to as OPEN SPACE e.V.

## **Liability**

At this point, it is expressly pointed out that both the stay and the training in the OPEN SPACE training hall are associated with risks that arise from the conceptual approach of the OPEN SPACE training offer: The training in the OPEN SPACE training hall is largely based on the concept of the scene-affine "each-one-teach-one" and thus places high demands on personal responsibility, foresight and the considerate behavior of each individual training participant. The workshops offered in OPEN SPACE are designed as impulse-giving additional offers. They, too, are based on the moment of partnership and are primarily intended to give participants suggestions for independent development. Participation in the workshops therefore also requires a high degree of personal responsibility on the part of the participant.

# OPENSPACE
